

Premium Outdoor Living

Exclusive Design / German Engineering / www.holili.com

Welcome to

HOLiLi outdoor emotions

HOLiLi outdoor emotions is a young German company with its own production facility on the Indonesian island of Java.

The perfect harmony of international design, German quality standards and the highest art of Indonesian cane work results in products, which set new standards in the domain of outdoor furniture.

HOLiLi furniture is 100% handcrafted and it takes up to two weeks for one piece of furniture to achieve perfection in every detail.

Enjoy our new collection: stylish, beautiful, functional and above all so comfortable that you'll never want to get up again!

We hope you love it just as much as we do!

Weaving Fiber

HOLiLi furniture is completely handcrafted in our own manufacturing facility in Indonesia. It takes up to two weeks for one piece of furniture to achieve perfection in every detail. Each furniture is made in a special weaving style which perfectly matches the design.

We are only using high-quality branded weaving fibers which are ideal for outdoor usage and stand for maximum quality and reliability. The synthetic weaving material is 100% UV resistant and can stand all weathers. Even frost and snow do not harm it.

One other aspect in choosing the right weaving material was the environmental compatibility of the synthetic material. Due to using a specific type of polyethylene our weaving material can be recycled completely residue-free.

For cleaning of the furniture simple use a soap sud and a sponge or brush.

Fabric

HOLiLi cushions are designed and tailored to fit each item of HOLiLi furniture perfectly. All cushions are made of Olefin which is an all-weather fabric that withstands years of exposure to sunlight and rain.

Olefin's advantages are its strength, colourfastness and comfort, stain, mildew, abrasion and sunlight resistance.

All covers can be removed and washed at a maximum of 40°C.

For small stains, hand washing with water is sufficient.

After washing we recommend that the covers air-dry vertically.

Our Company

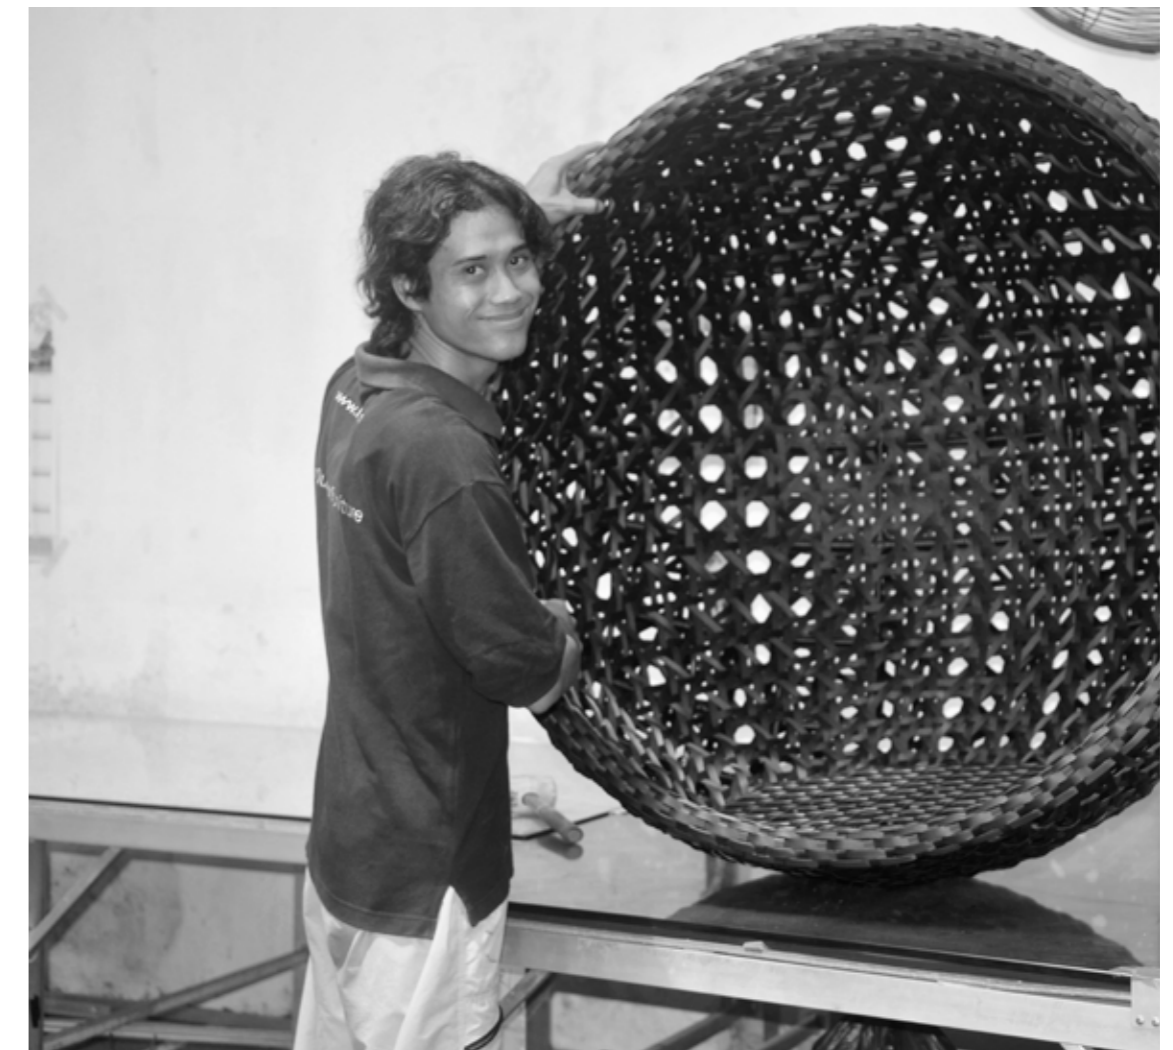

At HOLiLi outdoor emotions teamwork and a good working atmosphere are the key factors to our quality and success.

You are more than welcome to visit our production facility to convince yourself of our high quality standards.

Every HOLiLi furniture is manufactured in our own production site in East Java, Indonesia.

Each furniture must pass strict inspections after every single production step and is labeled with a unique serial number.

The production is managed by the German owners and therefore stands for top quality you can rely on.
